UCLG CONGRESS
**WORLD SUMMIT OF LOCAL
AND REGIONAL LEADERS**

Programme

#UCLGCongress

detailed
programme

The World Summit of Local and Regional Leaders, convened by *United Cities and Local Governments (UCLG)*, is the largest gathering of mayors, presidents of associations, councillors, and local and regional practitioners from around the world. It also gathers the most influential local and regional leaders, partners, and actors implicated in the decision making of city and community life.

The triennial UCLG Congress builds on the legacy of the commitments of the local and regional governments' constituency around the world. A commitment to ensure a better future for all through action at local, national and international levels. A commitment to govern and build in partnership, and for cities and regions to take their rightful place at the head of a new international agenda for inclusive and sustainable development.

Monday 11 and Tuesday 12 will be dedicated to smaller-scale events and preparatory meetings.

The Summit will be officially opened on Wednesday 13, with Wednesday 13, Thursday 14 and Friday 15 as the main political days of the Congress.

Getting Local Finance Right entails ensuring sufficient access to finance for local governments. In order to meet the challenges of sustainable urban development, the legislative frameworks must open the door for an empowerment of local and regional governments and an equitable distribution of financial influx.

The session, led by UCLG-Africa, will discuss how to develop an political environment for decentralisation and an enabling environment for the financing of local and regional governments, the role of decentralizing financing to increase local and regional governments' capacity to act, and articulating strategies that allow for the reinforcement of the financial management of cities and regions.

11:30-13:00: Assembly on Aligning Local Priorities with the 2030 Agenda, and the Right to the City: "Lightning rounds: European actions on the SDGs" led by Europe

The Universal Development Agendas will never happen unless they are mainstreamed and owned at the local level. Over 60% of the targets of the SDGs are achievable at the local level yet, currently, the lack of coordination between the different institutions that share SDG-related competences is clearly affecting their implementation. While the major challenges facing cities and rural areas are the very close, they often materialized in different ways and addressing in the materialization of the issues raised but often interrelated and need to be addressed in a common way.

This session will be an opportunity to discover the different ways in which European municipalities and regions are implementing the Sustainable Development Goals. Come meet local and regional officials and learn more about the day-to-day actions implementing the 2030 Agenda. This interactive session will feature a wide-ranging discussion covering numerous topics, including European environmental legislation, gender equality, European neighbourhood policy, international development policy, as well as Europe's contribution to the global SDG agenda.

13:00-14:30: Assembly on Resilience, Urbanization and Heritage, led by Eurasia and Asia-Pacific

Resilience and disaster reduction are high on our agenda, owing to the threats presented by a rise in natural or man-made disasters. The resilience of cities and regions is at the heart of the Sendai framework localisation strategy, and the Assembly will address the commitments and actions of LRGs, as key to the achievement of target E of Sendai Framework for DRR.

The relationship between resilience and the heritage of our cities, in particular the conservation of heritage in view of the Climate Emergency, will be further explored during the session led by Eurasia and Asia Pacific.

Town Hall Track

Inauguration

The Town Hall Track offers a space for all civil society stakeholders to co-create together the future of the municipal movement, recalling that only through stakeholder engagement and true multi-level dialogue will it be possible to transform the international governance system. Different constituencies will present and discuss policy papers with local and regional governments which should inspire our policy, advocacy, research and learning agendas in the coming years. Rest assured, Cities are listening.

Accessible & Inclusive Cities

Accessible and inclusive cities are integral in the respect of every citizen's basic human rights. For this reason, this opportunity of co-creation builds a narrative around human rights and accessibility which is a precondition to being able to live in an independent and equitable manner. Recommendations will be given to local and regional governments within this context and will focus on the Global Compact on Inclusive and Accessible Cities and how local leadership can pave the way towards universal design.

Ms. Fatimetou Abdel Malick, President of Nouackchott Regional Council

Ms. Evgenia Lodvigova, Deputy Mayor of Kazan

Mr. Luca Bergamo, Deputy Mayor of Rome

Mr. Yousef Shawarbeh, Mayor of Amman

Gender Equality and Women's Empowerment

Sustainable development must be equitable and this can only occur if gender equality is achieved. Access to basic services and the total inclusion in decision-making processes are essential to democracy and to prosperous cities and local governments; everyone must be represented. This moment of co-creation will focus on the added efficiency and accountability that local governments receive when gender mainstreaming their policies.

9:30-11:00: Assembly on Multilevel Governance and National/Continental Advocacy, led by the Americas

Multilevel governance - understood as a complement and not an alternative to local autonomy - has become an opportunity for local and regional governments to be protagonists on the international stage. Further strengthening multi-level governance is both a challenge and a priority. The governance model needs to be innovative and integrated over the long term, supporting the participation of local and regional governments in the definition of national policies, and in particular national urban policies and regional development strategies for the localization of the SDGs, the achievement of the New Urban Agenda and other global challenges.

The Assembly on Multilevel Governance will assess the next steps towards ensuring a true multilevel and Multistakeholder governance and the role local and regional governments will play towards its consecution. The session will further address the issue of strategies around national and continental advocacy, by Sections, associations or members directly.

11:00-12:30: Assembly on Migration Management and Peacebuilding, led by MEWA

Migration, when considered at the local and regional level, is a matter of provision of basic services and ensuring equal access to rights within cities. The session will explore the relationship between migratory movements, the consolidation of peace at the local level, and the need for social cohesion policies at the local level to ensure the positive aspects of migration shine through.

The session, led by the Middle East and West Asia region, will also deal with the realities faced primarily by the local and regional governments in the region, such as the refugee crisis in Syria, and how to ensure peace within contexts of fragility and manage vast population flows

Special Session:

The Future of Resilience

The role of local leaders is highly stressed in the added value that cities can bring to the planet's resilience and the natural and cultural heritage affected left by our way of living. The role of cities is key when it comes to the missing link between the local/ground level with civil society and nations.

This session will explore the dynamics structured in the UN agenda and its potential for a wider understanding of resilience that focused on the role of cities managing the natural resources and contributing to the resilience of the planet and social global justice.

Plenary:

Intergenerational Dialogue for Peace and Solidarity

Cities are where creativity happens, and where dreams are fulfilled, but they can also prove to be places of exclusion, frustration and conflict. In order to make our cities spaces of peace, we need to develop more than the absence of war. Dialogue should be the cardinal rule of today, for the sake of tomorrow. The UCLG Peace Prize that will be presented aims to shed light on the heroic local governments that are brave enough to carry out peacebuilding initiatives, often without any outside help.
